

IRYNA MURASHKO

QA ENGINEER (REMOTE)

Profile

Quality Assurance professional with over 3 years of hands-on experience in ensuring the excellence of diverse products, including websites, CRM systems, CMS, eCommerce platforms, mobile banking applications, payment solutions. Beyond QA, I have also cultivated expertise in UI/UX design, business analysis, and project management, contributing to a holistic understanding of the software development lifecycle. Enthusiastic about digital products and dedicated to actively participating in their development. Committed to delivering high-quality and user-friendly digital solutions.

Experience

QA Engineer

FlawlessMLM, Remote | 01/2022 - now

- **Projects** : CMS, MLM, eCommerce;
- **Tools & Tech**: Chrome Devtools, Browserstack, Figma, Postman, MySQL, PostgreSQL, ZAP;
- manual testing of WEB applications, covering both frontend and backend, layout and functionalities;
- executing REST API testing via Postman (backend testing while frontend is not ready, running tests with CSV data file for comprehensive test scenarios, scripts/snippets);
- mobile apps testing (mainly iOS);
- business logic testing: design of test scenarios and checklists for complicated, multilevel rewards system (bonuses, ranks, grades) and accounting system of the MLM projects;
- developing test artifacts (check-lists and test-cases design, bug reports);
- applying SQL queries in relational databases, such as PostgreSQL and MySQL, to validate data integrity;
- bug tracking and resolution by reproducing issues identified by Sentry, facilitating collaboration with front-end and back-end developers for effective bug fixes;
- proactive participation in daily meetings, workshops, retrospectives;
- engaged in communication with clients' representatives, addressing inquiries related to product exploration and promptly resolving issues;
- collaboration with cross-functional teams to identify and address issues, contributing to seamless product releases.
- doing QA estimation of familiar/unfamiliar tasks;
