IRYNA **MURASHKO**

QA ENGINEER (UKRAINE,ODESA. REMOTE)

Profile

Middle QA Engineer with over 4 years of experience in web, mobile, and API testing and ensuring the excellence of diverse products, including eCommerce, CMS, MLM, mobile banking apps, core banking systems, and payment solutions.
Beyond QA, I have also cultivated expertise in UI/UX design, business analysis, and product management.
Addicted to delivering high-quality and user-friendly digital products.
I've already developed knowledge and skills in the automation of API testing and these days I'm studying Cypress and Playwright to be up-to-date with technologies and be ready to dive in automation besides manual testing.

Experience

Middle QA Engineer
FlawlessMLM, Remote | 01/2022 - 03/2024

- **Projects**: eCommerce, CMS, MLM;
- **Tools & Tech**: Chrome Devtools, Browserstack, Figma, Postman(REST API), MySQL, PostgreSQL, ZAP OWASP, Sentry; Redmine, Slack, Notion, Trello
- **Responsibilities:**
- manual testing of web and mobile applications, covering both frontend and backend (UI/UX, cross-browser, functional testing, security);
- executing REST API testing via Postman (backend testing while the frontend is not ready, running tests with CSV data file for comprehensive test scenarios, scripts/snippets);
- reviewing documentation and requirements analysis ;
- business logic testing: design of test-cases and test-suites for complicated, multilevel rewards system;
- developing test artifacts (check-lists, test-cases design, bug reports);
- applying SQL queries in relational databases, such as PostgreSQL and MySQL, to validate data integrity;
- bug tracking and resolution by reproducing issues identified by Sentry, facilitating collaboration with front-end and back-end developers for effective bug fixes;
- proactive participation in daily meetings, workshops, retrospectives;
- engaged in communication with client's representatives, addressing inquiries related to product exploration and promptly resolving issues;
- collaboration with cross-functional teams to identify and address issues, contributing to seamless product releases.
- QA estimation of requirements, familiar/unfamiliar tasks;
- Alpha-testing of projects of other teams
